

# McDonald's New Look Canopies in Malaysia

Mulford Plastics SOLARFLAT polycarbonate sheets was the perfect product for McDonald's to protect their customers from the sun.

Mulford Plastics in Johor Bahru were asked by McDonald's Malaysia to assist with the product selection of a product for their outdoor canopies. Our local team worked closely with the local McDonald stores and understood the key requirements for the canopies was to protect their customers from the hot sun and too keep them dry during the tropical downpours. Most importantly the product was also to maintain its aesthetical appearances over a period of 10 years.

Mulford Plastics not only supplied the sheet as most distribution companies do, we also offered the service of installation of the SOLARFLAT bronze embossed polycarbonate sheet manufactured by PT Impact Pratama providing our customer with a total solution.

SOLARFLAT is a new product manufactured by PT Impact Pratama who is the largest Polycarbonate extruder in the region and the product was selected for its mechanical properties of impact resistance, weatherability, ease of installation, embossed finished and colour matching to McDonald external store finishes.

This new product compliments the other very successful Twinlite and Solartuff Corrugated sheet manufactured by Impact Pratama and sold through Mulford Plastics.
